

Show Pride in Your Child's Work by Joining Tikatok.com!

Dear Parent,

As part of a classroom project, your child created a book on Tikatok.com, an award-winning site where children write, illustrate and publish their own books! Join Tikatok today and you can view your child's book online, purchase copies of your child's book for friends and family, create more books together and save your child's classroom project from being deleted after the school year is over.

Your child's Tikatok account and any books he or she may have created will be deleted by the date given to you by your child's teacher, unless you register and link to your child's account. To register for a Tikatok account and save your child's classroom project, follow the instructions below:

1. Register for a FREE Tikatok account by visiting www.tikatok.com.
2. Once you've registered, sign in to Tikatok.com and click "Profile" at the top of the page.
3. Click "Link an Existing Child Account". Enter your child's username and password. Your child or child's teacher will provide you with this information.

Note: Your child's teacher will still be able to view your child's book even after you establish a Tikatok account.

Sincerely,
Your teacher
